

NOTE-

In such cases, pilots are expected to advise ATC of the speed that will be used.

IN SUCH CASES, THE PILOT IS EXPECTED TO SO INFORM ATC.

NOTE-

Pilots are expected to comply with the maximum speed of 200 knots when operating beneath Class B airspace or in a Class B VFR corridor (14 CFR Section 91.117(c) and (d)).

4-4-13. Runway Separation

air traffic separation.

REFERENCE-

AIM, Para 4-3-15, Gate Holding due to Departure Delays.

4-4-14. Visual Separation
