

**REFERENCE-**

*AIM, Para 5-1-1, Preflight Preparation, for items that are required.*

*recommended.”*

*“VFR flight not*

*VFR flight not recommended*

**NOTE-**

*Pilots flying into areas of minimal VFR weather could encounter unforecasted lowering conditions that place the aircraft outside the pilot's ratings and experience level. This could result in spatial disorientation and/or loss of control of the aircraft.*

**NOTE-**

*These first 3 elements of a briefing may be combined in any order when the briefer believes it will help to more clearly describe conditions.*
